Introduction

WELCOME TO THE POST-ASSESSMENT DATA SCIENCE MCQ TASK!

This evaluation is designed to measure your proficiency and growth in crucial Python and data science concepts. As you tackle the questions, consider it a reflection of your growth since the beginning of the program. Answer to the best of your ability. This is your chance to showcase what you've learnt and to identify areas for continued improvement.

SOME THINGS TO KEEP IN MIND

Don't be alarmed if you encounter concepts that still feel unfamiliar – it's a natural part of the learning process. Answer each question to the best of your ability, even if there are areas where you might still feel uncertain. Consider this post-assessment as a checkpoint in your learning journey, and anticipate noticing significant improvements compared to your earlier assessments. Use this opportunity to reinforce your knowledge and identify areas for continued growth.

Instructions

Practical Task

To access the multiple-choice questions (MCQ), click on the provided hyperlink. You can find it by **[following this path](#)**.

Once there, complete the questions to demonstrate your understanding of the fundamental Python and data science concepts.
