Introduction

WELCOME TO THE PRE-ASSESSMENT DATA SCIENCE MCQ TASK!

Task 0 is designed to assess your foundational knowledge of essential Python and data science concepts. It serves as a baseline evaluation of your existing understanding in these fundamental areas.

SOME THINGS TO KEEP IN MIND

Don't be concerned if some of the concepts seem unfamiliar at this stage – it's completely normal. Answer all the questions to the best of your ability, even if you're unsure about certain topics. This assessment is a starting point, and as you progress through the program, you'll likely notice a significant improvement in your understanding. Use this as a valuable learning experience, and remember that growth comes with practice and exploration.

Don't worry, the score you achieve on this assessment won't impact your ability to progress in the bootcamp in any way. It's simply a tool to help us understand your current knowledge and tailor the learning experience accordingly.

Instructions

Practical Task

To access the multiple-choice questions (MCQ), click on the provided hyperlink. You can find it by **[following this path](#)**.

Once there, complete the questions to demonstrate your understanding of the fundamental Python and data science concepts.
